Subject: RE: Update requested by ODEQ on status of request submitted by DCP Operating

Diana,

Our HPV call with ODEQ is today at 10 AM. Camas requested an update on the DCP Midstream applicability determination. He said he spoke with Darrin on March 6th and he thought maybe about 30 days to get a final copy sent, We are approaching 90 days and have not seen the final determination yet.

Thank you in advance,

Toni Allen

EPA Region 6

Hi Camas,

The AMP response is at EPA headquarters waiting on their comment and concurrence. We have been working with EPA HQ on a massive NSPS OOOOa FOIA request so that has delayed finalizing the AMP response. I apologize for the delay, and will let you know when it gets through concurrence here.

Subject: Update requested by ODEQ on status of request submitted by DCP Operating

Diana,

During the scheduled call with ODEQ today, Camas Frey asked for an update on the request submitted by DCP Operating Company on 11/28/17 regarding atmospheric flow-through transfer sumps being classified as "process vessels" and as such, are not subject to Subpart 0000. Please email or call Camas directly and copy me and Lisa so we can check it off our action item list.

Thank you in advance,

Toni J. Allen
